NOTICE:

The DMTF continues to receive information that procurement documents issued by the Mexican and Brazilian governments contain a requirement for bidding manufacturers to belong to the DMTF “as Board Member”. DMTF first learned of this problem in 2005 and has taken steps to stop it.

The DMTF does not endorse this language and has no connection with the procurement process of any government or private industry sector. The DMTF objects to the inclusion of such a clause in any commercial context or procurement setting. DMTF has contacted Mexican government officials and US Embassy personnel in Mexico City to protest this practice.

The DMTF is a not-for-profit association of industry members dedicated to promoting enterprise and systems management and interoperability. DMTF standards are designed to be technology neutral and platform independent.

Anyone who has questions regarding this notice may contact Kes Wold, DMTF Executive Director, at admin@dmtof.org.
